SOME SMILES

In some apartment houses the walls are so thin you can hear your neighbor's TV set blasting or the radio giving forth some unholy sounds. The situation really becomes a tough one on the human nervous system when Junior starts pounding the keys of the piano. Alas, this almost tragic situation is not confined to the cities. For in some of the suburbs, they have houses so close to each other, that those sounds also penetrate the walls of the adjoining houses. What to do? That is the big problem.

The woman living in Apartment 5C was surprised when she heard her door bell ring. "Who is there?" she asked. "The Piano Tuner," was the reply. "But I didn't send for you," she said to him. "That's o.k.," he replied. "Your neighbor in 5A is paying the bill. He says at least if he must listen to your kid banging away on the piano, it should be in tune."

A slightly different version of this story is the one that took place in a certain suburb. A car drove up and a rather well known man came to the mother of junior. "I am here to give your son his first piano lesson." "I wish I could afford it," sighed the mother. "I saw your picture in the newspaper this past Sunday. Just a mistake." "No mistake," was the reply. "My fees are very high. But your kind neighbors have all contributed so that your son may learn the techniques of playing the piano instead of spending his time attacking it."

But the best one I am told concerns a neighbor who made a tape recording of junior hitting the keys of a piano – and then played it back!

This one took place in the police department of a very large city. After a candidate passed his written and physical examination he went to the Police Academy and studied practical police techniques. The young man in question happened to be the nephew of the mayor. He was a college graduate; had the highest score on the written examination and passed the physical with flying colors. He was already telling the other cadets how he would change things when he became Police Commissioner.

This came to the ears of the Chief of Police who tried to think up an idea of how to give this "upstart" a good lesson. So he unburdened his heart to his wife – who happened to be an ex-police woman. And now was the mother of five children. She smiled and looked at her baby on the floor. Then the idea struck her and she told it to her husband.

The next day each police cadet had to take the practical fingerprint test. He was placed in a room with an open safe. He had to lift the prints from the safe. Then roll the prints of six "suspects" and compare. The nephew did this – and turned pale. None of the prints matched. The safe had been opened. The prints were clearly visible. One of the six "suspects" was guilty. Yet he must have done something wrong. But what was it? He got his lesson when the instructor said to him:

"Suppose you take the toe prints. Did it ever dawn on you that a man might be able to use his toes instead of his fingers to turn the dial on a safe?"

You can read a lot of learned articles about how the automobile has changed the entire life of this country. One study will tell you that a lot of Americans have turned into modern gypsies. Instead of hitting the road with a wagon and horse, they now have a trailer attached to their car. Another study will tell you that the abandoned railroad line is in its condition because of modern highways and cars. And there is a study to show you that because of the automobile, the suburbs are now really part of the nearest largest city.

But there are a lot of strange things that happen because of the automobile that never come under the eyes and attention of these learned writers. My wife and I were spending several days during the past summer at a famous mountain hotel. Before you can even drive up, you have to be checked out by their private guard in his booth.

We saw this Rolls-Royce drive up and stop in front of the hotel. The Chauffeur gets out – and so does another dressed up fellow. They got two in that car! Somebody rushes in and tells the famous old woman who founded the hotel about the arrivals. So she goes out to greet them in person. We see the chauffeur carry out a teenage boy in his arms. This makes us feel sad.

"Since he can't walk, I'll get you a wheel chair," says the hotel woman.

"Our son is in good health," is the unexpected reply. "But as long as we can afford our five cars and servants – he doesn't have to walk a step more than necessary."

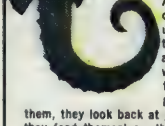
Sea Horse 'Ranch' ONLY $2.98



Adults and children alike gasp and laugh with delight when they see these wonderful and unusual pets from the sea. These curious creatures with heads like little horses, are unlike any fish. They swim and move through the water without any apparent effort. They hitch themselves by their tails to anything they can grab including each other. When you look at them, they look back at you. They sail around, they feed themselves, they turn summersaults and "stand on their heads." The female lays the eggs in the male's pouch and he hatches them. The baby sea ponies come out alive ready to swim.

IS YOUR HAIR GROWING OR GOING?

Stand in front of a mirror. Take a long hard look at the top of your head. Do you have as much hair as one year ago? Do you see any new hair growth?

If your answer is no, it is important that you take steps today to save the hair you now have. If you act now, you may be able to reverse the trend on your head. You may be able to grow new hair faster than it is falling out. Doesn't that make sense to you? Wouldn't you like to look in the mirror a year from now and see more hair on your head than you see now? Why lose your hair if you don't have to?

CAN YOU SAVE YOUR HAIR?

Every year thousands of men and women go bald — needlessly — because of a scalp infection. This scalp infection is called seborrhea. Doctors say that three germ organisms cause seborrhea: staphyloccocus albus, pityrosporum ovale, and microbacillus. These germs attack the sebacious glands and the hair follicles themselves. If not checked, permament damage is done. The hair follicles atrophy, lose their ability to produce new hairs. The result: premature baldness.

You can easily tell if you are a victim of seborrhea. If you have itchy scalp, dandruff, hair loss, very dry or oily scalp, the chances are that you have seborrhea. Neglect these symptoms and you invite baldness.

Treat your scalp to Ward's Formula. This amazing scalp medicine quickly controls seborrhea and stops the hair loss it causes.

Here's the Proof!

I must admit I didn't have much faith in it, but I hadn't been using Ward's one week before I could see it was helping me. I could feel my hair getting thicker.
E. K., Cleveland, Ohio

Out of all the Hair Experts I went to, I've gotten the most help from one bottle of Ward's Formula.
C. La M., Philadelphia, Pa.

After using Ward's for only 12 days, my hair has stopped falling out.
R. W. C., Cicero, Ill.

I am tickled to death with the results. In just two weeks' time—no dandruff! *W. T. W., Portola, Cal.*

I feel encouraged to say that the infuriating scalp itch which has bothered me for 5 years is now gone.
J. M. K., Columbus, Ohio

Male pattern baldness is the cause of the great majority of cases of baldness and excessive hair loss, for which neither the Ward treatment nor any other treatment is effective.

DOUBLE MONEY BACK GUARANTEE

In seconds, Ward's Formula kills the three parasitic germ organisms retarding normal hair growth. This swift germicidal action has been proven in scientific tests by a world-famous testing laboratory (copy of laboratory report sent on request). Ward's removes infectious dandruff, stops scalp itch, brings hair-nourishing blood to the scalp, tends to normalize very dry or oily scalp. In brief Ward's Formula corrects the ugly symptoms of seborrhea, stops the hair loss it causes. Ward's Formula has been tried by more than 550,000 men and women on our famous Double-Your-Money-Back Guarantee. Only 1.9% of these men and women were not helped by Ward's and asked for their double refund. This is truly an amazing performance.

Why not join the men and women who have successfully ended their troubles? Treat your scalp with Ward's Formula. *Try it at our risk.* In only 10 days you must see and feel the marked improvement in your scalp and hair. Your dandruff must be gone. Your scalp itch must stop. Your hair must look thicker, more attractive, and alive. Your excessive hair loss must stop. You must be completely satisfied — in only 10 days — with the improved condition of your scalp and hair, or simply return the unused portion for Double Your Money Back. So why delay? Delay may cost your hair.
